I found one in the Icom IC-707. This rig of mine has the narrow CW filter (which is kinda essential for serious cw work) but no FM option and I haven't missed it! The rig does everything that is asked of it, puts out a good signal, has a ripper of a NB/preamp/attenuator which REALLY work, and hasn't faltered being on 12 hours a day.

Many Icom IC-7400's suffer from intermittent or non-functioning LCD backlights. Early symptoms of backlight problems include delayed turn on, random changes in brightness, and reduced maximum brightness. Eventually, the backlight may begin to randomly switch on and off, operate at drastically reduced brightness, or fail completely. These problems appear to be caused by a failure in backlight ...
