You combine the joint goal of this programme with one of the two distinctive tracks of Law and Economics. Find out more about the following tracks:

Law and Economics - Masters - Utrecht University

The "economy" is how resources are distributed throughout society. Since the 1960s, the world has been described as an information economy, rather than an industrial or agricultural economy. Buying, selling, and using information are at the heart of economic activity for businesses and consumers, as well as for the governments that regulate them.
