favorite classics, and more. Books are available in several formats, and you can also check out ratings and reviews from other users.

FANUC Arcmate 120iB Manual

Basic Description The ARC Mate 120iB series is a six-axis, modular construction, electric servo-driven family of robots designed for precise, high-speed welding and cutting. Based on their simple and reliable construction, the ARC Mate 120iB and ARC Mate 120iB/10L provide accurate and consistent path performance necessary for welding and cutting.

FANUC ArcMate 120iB - Plasma Cutting Robot - YouTube

This new generation of Arc Welding robots stands out based on its productivity advancements and rapid integration times. To utilize space more efficiently, the new ARC Mate 100iD has received a more sophisticated, curved design, which allows it to effortlessly operate in compact welding cells. It features a fully integrated welding hosepack and utility cables, which further economizes the ...

FANUC Arc Mate 100iD industrial Robot

The FANUC AM 120ib 10L robot is available in the R-J3IB, R-J3IC and R-30ia controllers. With the capability to perform MIG and TIG welding and plasma welding based applications, the 120ib/10L can be used in many different welding scenarios. This used robot is the predecessor to the very popular FANUC Arc Mate 120ic/10L.
