700 imho is the best motor ski doo ever put out, i think it was a mistake to drop it and go with the 600 ho. thats just my opinion. very reliable, has all the power of the 800 without the crank issues, ok fuel mileage depending on how you ride. 2003 should be the best year as far as the zx chassis is concerned, they should have it tuned better and it has sc10-3 rear suspension which is a big +. i would defiantly recommend a 700 to anybody!!

Final word Ski-Doo isn't messing around with its 2003 lineup. A new chassis or a new engine would have gotten the company by for another year. But instead, it's bringing on the heat with high output engines, clean-running engines and a completely new chassis. Be sure to stop by one of the Ski-Doo spring tour shows and see the mall for yourself.
